## ABOUT US

MYCrave Consultancy is a **promoter of Patent, Copyright & Trademark** and has initiated the propagation of providing the services of **filing of IPR at the lowest cost in India**. The educational seminars conducted by the MYCrave Team help to build & develop Intellectual Asset for the institutions and also for the individuals attending it. For the commercialization of the Government approved innovative ideas and creative products, an International platform has been established where any intellectual product can be sold or purchased. We strive to provide the creative minds of our country with a well-deserved recognition and valuation for their novel and artistic asset.

### VISION

To collaborate with all kind of service providers, to provide a **ONE DIAL SOLUTION** to the customers for all their web solution, Intellectual & legal needs and to achieve the **"MAKE IN INDIA"** concept by making each product indigenous with the help of Intellectual property rights.

### MISSION

To fulfill the web & legal needs of an entrepreneur's by bringing it all to his destination with **JUST A DIAL solution** and to educate the young India about Intellectual Property Rights so that they could earn its benefits by learning its importance.

### WHO WE ARE

We are a team of believers and builders. People talk about bringing new technology to develop our country but have forgotten about the brilliant innovators who are born in our land. **MYCrave's team hunts for such talents and aim to build indigenous products benefiting the economy of India.**

### WHAT WE DO

Our Team **promotes the importance of Intellectual Property Rights (IPR)** by conducting seminars, workshops and even provides personal counselling to enlighten the innovator hidden in each individual. We help them **acquire a government license and provide them with an international platform to commercialize their creation.**

# VIRTUAL R&D

Collaborative Innovation Streamlined

## VIRTUAL RESEARCH & DEVELOPMENT

### ABOUT

Every company or institute that stands out prominently in the market is due to their distinctive recipe of innovating something new. They believe in **standing out in the world with their own products or masterpieces making them global leaders**. In the **ride of creating a good asset, lot of strength in the form of manpower, wealth and time is spend** behind the research to study the project requirement, the market, along with the competitors' upcoming products which is necessary to stay in the cutthroat market.

**To simply the above said process** for any institution or a company, we stand by them as **their own Virtual R&D System**. Here we would do all the researches regarding the requirement and provide them with a blueprint of the idea they are willing to implement. We would provide them with multiple solutions and techniques for the easy execution of their proposal. We even provide them with the products or ideas that have already been implemented and will be disclosed in the future by various other companies. **This gives your company a window to execute a plan that is more progressive and efficient than any other product in the world.**
